San Francisco, CA 94115

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinal!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a "length-limited" conversation!

Professional Experience

Pied Piper

CEO/President

Palo Alto, CA
2013-12-01—2014-12-01

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
